

MINUTES of the ANNUAL GEORGE CREEK WATER USER'S MEETING held April 27, 1967, at 1:00 p.m. in the Yost Ward Hall.

Dee C. Hansen, Area Engineer, Richard Pexton and Blaine Taylor represented the State Engineer's Office. Water Users present were: Yale Montgomery, President, Thomas Teeter, incumbent water commissioner, Kenneth Richins, Karl Oman, Wallace B. Spencer, Darwin Thompson, Rollo L. Kimber.

Dee C. Hansen commenced the meeting by summarizing the minutes of the 1966 Water User's Meeting and called for a financial statement of that year. Richard Pexton reviewed the financial status of the George Creek Water Distribution System for 1966. Yale Montgomery moved that the 1967 budget be approved at \$825. It was seconded by Wallace Spencer and carried unanimously.

Incumbent commissioner, Thomas Teeter reported that the highest flow the creek attained in 1966 was 42.0 c.f.s. Wallace Spencer requested that the stream flow report be sent to Wallace Spencer, the George Creek Irrigation Co., and Darwin Thompson.

Dee C. Hansen opened the meeting to discussion and Wallace Spencer reported that the Harold Oman weir still did not have a measuring device. A decision was made to issue an order of non-use until a measuring device is installed. Thomas Teeter reported that the Lone Rock divider was inaccurate and needed an adjustment or repair to correct the problem. After some discussion, Mr. Hansen stated that he would examine the divider next summer and attempt to resolve the problem. Mr. Teeter requested that next year the meeting be held a month earlier or prior to the first of April.

Mr. Darwin Thompson was presented by the George Creek Water User's Association as Water Commissioner-elect and accepted by the State Engineer's Office. Mr. Thompson was then instructed as to duties and records required of the water commissioner.

The meeting was adjourned at 1:35 p.m.
